

# About John, John and nothing but John!

## JohnBoothCreative

Freelance Designer & Digital Nomad

### Everything starts with a need

In any business, there's work (in my case design) and then there's relationships with everyone who makes that work possible. Hopefully that could be you!

There's more to good design than you might think. Creativity and skill go hand in hand, becoming skilled takes a lot of hard work, study, dedication and above all time.

With over 25 years experience of working in the creative industry I value my experience and what I'm able to offer.

I have been drawing and doodling since I was able to hold a pencil. Each design project is unique, so it's not a one size fits all solution. Being flexible enables me to deliver effective and meaningful design on budget and on time.

If you already have a design brief that's great, but don't worry if not, we can work on that together.

## Let's chat! ...

a good old fashioned phone call  
on **07729 485 145** or email [john@johnbooth.net](mailto:john@johnbooth.net)

### GRAPHIC DESIGN

Not just RGB but also CMYK, I can produce work for both screen and paper including; logos design, business cards, advertising design for magazines, posters, events and book covers and more.

### ILLUSTRATION

No other medium stirs emotion quite like illustration. With meticulous detail using both traditional and digital media, I love creating illustrations that convey a message without the need to be told through words.

### MOTION GRAPHICS

If a picture speaks a thousand words, then motion graphics speak a million. Motion graphics can make a dry or boring subject more exciting using a unique blend of 2D, 3D, text, video and audio.

### PRESENTATIONS

With an array of visual communication knowledge and experience, I can design and prepare your PowerPoint and Keynote presentations that translate complex ideas into compelling visual stories.
